WELCOME TODAY'S SPEAKER GINDY YOUNG

[Cindy Young](#), certified interior decorator. Cindy Young's philosophy is that home environments should serve the client with beauty and comfort. She has been creating distinctive interiors for her clients for over 20 years and has served clients in all areas of the U.S. She travels extensively throughout Europe and Central and South America and she puts these varied experiences to work for her clients in creating interior designs that reflect the client's personality and lifestyle. Cindy is a Certified Interior Decorator and a Certified Project Management Professional and is skilled at delivering projects within budget and on time. She holds a BBA and MBA in finance from the University of

Mississippi, and she participates in over 100 hours of continuing interior design education each year to ensure that her clients receive the latest features that will enhance their living and working spaces. She provides complimentary consultations to discuss creating the environment that serve her clients' needs. The talk is titled "The Design Process."

"NOT BAD FOR YOUR FIRST BLOOD DRIVE"

THE NURSE SAID IN THAT "TRANSYLVANIAN" ACCENT

"But we should do much better next time" or else!

Blood drive critique right after meeting "stick around"

Carrie to report on "PETS"

What will be our next year be like?

"Que serraah serraah" what ever will be will be.

Next week's speakers (very special week)

We have three speakers from [Digital Divide Data](#) (DDD), which bridges the divide that separates young people from opportunity by providing disadvantaged youth in Cambodia and Laos with the education and training they need to deliver world-class, competitively-priced information technology (IT) services to global clients, acquire essential business management skills, and break the cycle of poverty.

Mai Siriphongphanh, Chief People Officer, graduated from the [Australian Graduate School of Entrepreneurship](#) at [Swinburne University of Technology](#) in Melbourne, Australia, and received her MBA in December 2002. She joined the management training in DDD Phnom Penh in July 2003 and came back to her country of Laos to replicate the DDD model in Vientiane.

Souphalak Souksavath, Finance Director, graduated from the Business School of the [University of Technology, Sydney](#), Australia, in 2003. From 1998 to 2000 she worked for the UNDP project at the [Ministry of Labour and Social Welfare in Laos](#), managing accounting for small and medium enterprises, marketing and training for a European Union bank-training project at the Central Bank of Laos.

Kunthy Kann, General Manager, earned his bachelor's degree in 2005 in Human Resource Management from the [University of Management and Economics](#) in Lithuania, and a High Diploma of English from [Pannasastra University](#) of Cambodia in 2003. He

worked for two years as an English teacher before joining DDD Phnom Penh in 2001 as operator before being promoted to Team Leader. In October 2003, Kunthy was promoted again, this time to the position of Branch Manager for the Battambang office in

Cambodia, where he remained until November 2005, when he became General Manager of DDD's Phnom Penh office.
