# ROBERTO GIANNICOLA

**Roberto Giannicola.** Only a few years ago, Roberto realized that the mundane lifestyle he was living had more far-reaching and damaging consequences on the environment, people, and planet than he ever expected. Ambiguous at first, he decided to begin with small steps. Over time, he gathered “eco-momentum” and discovered easy fulfilling ways to live with respect, reverence and responsibility. In 2004, Roberto attended a two-year environmental and humane education program from the [Institute for Humane Education](#). This program focused on issues including the environment, human rights, animals and a broad range of cultural and media issues. In 2007, he founded [Provokare Presenations](#), a company dedicated to inspire and provoke changes for a better environment and a healthier life. The topic is “Green Living,” small changes we can make in our lifestyles with benefits to ourselves, the environment and our business.
