ROTARY AT WORK DAY

It happens the last Saturday in April each year. Started in 2006 as a joint effort between two Rotary Districts (one in the United States and one in Mexico), Rotarians at Work Day continues to grow. Each year, Clubs around the world identify a hands-on project that all members can participate in to help their local community. The day is a great way to revitalize your Club, bring in new members and generate publicity for Rotary. Our Club will be "*Beautifying our Marvelous Beaches*". What better way to introduce ourselves to new friends. April 25th is the day we all *invite* and *insight* Rotary Fever. How about a Picnic at the finish line? Let's PLAN.
